MISUMI Announces Organizational Changes

MISUMI Group Inc. is pleased to announce the following organizational changes implemented in its operating company, effective as of November 1, 2006.

Organizational Changes and Changes in Duties

SURUGA SEIKI CO., LTD.

1. Organizational Changes

With a view to accelerating and further enhancing the development of MISUMI Group's operations, the following organizational changes will be made. The principal changes are as follows:

- The Die Tools Division will be broken up into the Punch & Die Manufacturing Group, Mold Components Manufacturing Group, and FA Manufacturing Group.
- The Support for Automation Division will be abolished. Its direct-sales operations will be transferred to the OST Division and its components manufacturing and sale operations will be transferred to the newly established FA Manufacturing Group.
- The Engineering & Development Division will be split into the Engineering Department and Product Development Department.
- The Overseas Production Control Department will be abolished, and factories both within Japan and overseas will be made individual organizations.

2. Changes in Duties

In conjunction with the organizational changes listed above, the duties of officers will be changed as follows:

Name	New Position	Former Position
Masayuki Takaya	Corporate Officer, General Manager of Punch & Die Manufacturing Group, Mold Components Manufacturing Group, FA Manufacturing Group, Purchasing Department, and 5C Reengineering Department	Corporate Officer, President of Die Tools Division, General Manager of Overseas Production Control Department, Purchasing Department, and 5C Reengineering Department
Koshi Haraguchi	Corporate Officer, General Manager of Engineering Department, Product Development Department, and Environment & Quality Management Department	Corporate Officer, Manager of Engineering & Development Division and Support for Automation Division, General Manager of Environment & Quality Management Department
