

MISUMI Group's Policy in response to the State of Emergency being lifted
(published May 27th)

To all our Stakeholders

Our deepest condolences go out to lives lost and our heart-felt wishes for a swift recovery to those that have been affected by COVID-19.

The state of emergency declaration announced on April 7th was lifted on May 25th in all prefectures. However, in preparation for the second wave of infection spreading again, due consideration continues to be given to preventing the spread of infection both inside and outside the Company, whilst ensuring the safety of employees. MISUMI Group will continue business operations in order to fulfill its supply responsibilities to the extent possible, predicated on complying with applicable laws and regulations.

MISUMI Group has already begun resuming in phases, same-day shipments of inventoried products and quick delivery services for MTO products, that had been suspended. However, there is a possibility that impact may linger, and delivery time may continue to be prolonged for some products. For details on the impact on customers' orders, please check our EC site "MISUMI-VONA (<https://jp.misumi-ec.com/>)". * in Japanese only
