MISUMI presents the 15th ROBO-ONE Light: 86 robots

MISUMI presents the 2nd ROBO-ONE auto 26 robots

Scene from the 31th ROBO-ONE

【What is ROBO-ONE?】

“ROBO-ONE” is battling tournament that is held twice a year, since it began in 2002. The robots throw punches and employs throwing techniques to defeat their opponents. Each contestant fights a three-minute round to see who has the toughest biped robot. The first contestant to score three knockdowns wins the match.

The competition is made up of three categories. “ROBO-ONE”, “ROBO-ONE Light”, and “ROBO-ONE auto”. “ROBO-ONE” and “ROBO-ONE Light” uses a controller to manipulate and battle it out. “ROBO-ONE Light” is a tournament for beginners using official authorized store-bought robots or self-made robots weighing less than 1Kg. “ROBO-ONE auto” differs from the other two categories in that robots cannot be manipulated during the fight using a controller; a completely autonomous battling competition.

【MISUMI Group's Initiative】

In addition to sponsorship of the ROBO-ONE, MISUMI Group has been offering student clubs participating in car and robot competition as part of the "student manufacturing support" initiative since 2008, MISUMI FA mechanical products etc. pursuant to a selection and screening process. We provide these free of charge to students involved in future manufacturing. In fiscal year 2016, we have supported over 200 student clubs.

The MISUMI Group will continue to support people who are passionate about manufacturing.
