

**Machine parts for automation sites shipped as early as day 1**

## **New General Catalog (Paper Edition) Released for the First Time in Six Years**

- In response to customer feedback, two paper catalogs are released:  
"Economy Series (870 pages)" and "Aluminum Frames and Safety Fences (770 pages)" -

MISUMI Group Inc. (Headquarters: Chiyoda-ku, Tokyo, Japan; Representative Director and President: Ryusei Ono) has published two new editions of its general catalog. Orders for the new catalogs will be accepted on MISUMI's e-Commerce site starting March 11, 2024.

Both catalogs feature a wealth of new products and applications. One is dedicated to MISUMI's "Economy Series" products, which offer an average price reduction of 45% \*1. The other is dedicated to "aluminum frames" used as enclosures for automation equipment and "safety fences" used to prevent access to hazardous areas in factories. \*1 Compared with our similar products

### ■ Background

Since the publication of the last catalog in 2018, MISUMI has been providing information on mechanical parts on its e-commerce website. The publication of a comprehensive catalog for the first time in six years<sup>\*2</sup> is in response to many customer's requests for a paper catalog (due to lack of internet access), and to check products at a glance due to the large variety of products. This is the first comprehensive catalog for our Economy Series products. \*2 As a catalog for mechanical parts

## ■ Main Contents of the Two Catalogs

Catalog Name: MISUMI Economy Series General Catalog

Features: Cost reduction was achieved by reviewing product precision, manufacturing methods, and production batch. The catalogs also cover the best-selling products in Japan.

Contents: Fastening parts, rotary transmission parts, exterior parts, positioning parts, fluid temperature control parts, linear motion parts, etc.

Number of items listed: 700

Number of pages: 870

Catalog Name: MISUMI General Catalog for Aluminum Frames and Safety Fences

Features : Abundant application examples. Extended the product range of easily selectable unit and set products.

Contents : Aluminum frames, safety fences, aluminum pipe frames, design examples, etc.

Number of items listed: 430

Number of pages: 770

## ■ How to Order the Catalogs

## ■ About MISUMI's "Economy Series"

MISUMI's Economy Series is a low-priced product line with an average discount of 45%\*<sup>3</sup> and features a wide selection of over 700 items. By reviewing product precision, manufacturing methods, and production lots, we have achieved cost reductions while ensuring sufficient quality. In addition, prices are reduced by up to 90%\*<sup>3</sup> for bulk/large purchases. More than 20,000 companies have adopted this new brand, which offers low prices in response to rising prices.

## ■ About Aluminum Frames and Safety Fences

Aluminum frames are used as enclosure frames for automated equipment used in the manufacturing industry, and safety fences are used as protective fences to prevent access to hazardous areas where industrial robots operate. In response to customer demand for aluminum frames with higher rigidity to meet the increasing speed and precision of automated equipment, MISUMI has developed our own "10 Series" of high-rigidity frames. In addition, with the release of the catalog, we have reduced the prices of our most popular products by 10%, making them even more affordable.

In the area of safety fences, we have expanded our product line to approximately double that of last year in response to the growing demand in proportion to the increased use of industrial robots. We have also achieved an overwhelmingly short delivery lead time of the 4th day shipping from order receipt.

■ What is MISUMI?

MISUMI sells mechanical components required on-site for factory automation, as well as tools, consumables, and other products to more than 320,000 companies\*4 worldwide. We wear two hats: a manufacturer with manufacturing functions and a distributor of other company's branded products. With this unique business model, supported by a solid business base, MISUMI achieves "globally reliable, quick delivery" for greater customer convenience. \*4 As of March 2023
