Accumulated Management Capitals

MISUMI is committed to enhancing Customer's Time Value and has built various management capitals alongside its business growth. These management capitals are essential in supporting our business activities and serve as a source for further enhancing corporate value in the future. Under our philosophy that improving Customer's Time Value leads to the development of the Industrial Automation (IA) industry, we aim to strengthen each type of capital, accelerate our growth, and contribute to the realization of a sustainable society.

Customer's Time Value
—Time-based Strategy—

MISUMI's Sustainability

MISUMI's "Growth Chain-reaction Aspired Management" focuses on eliminating inefficiencies in the Industrial Automation (IA) industry to enhance Time Value. This approach drives supply chain reengineering through introduction of new products and services via Digital MODEL Shift. By tackling societal challenges such as a declining labor force, resource scarcity, and climate change, we align our sustainability efforts with our business strategy, contributing to the realization of a sustainable society.

Human Capital

Guided by our human capital management philosophy, MISUMI strives to be the "Best Place to Grow," embracing challenges and aspiring to be the world's foremost growth-oriented company.

Number of employees	Percentage of females in management	Internal transfer rate
11,039 (Domestic: 3,164 Overseas: 7,875)	24% (Global)	15% (Use of Next Challenge Program, MISUMI Japan)

Natural Capital

MISUMI creates value through management of energy and water resource usage as well as initiatives to reduce consumption

Energy consumption	Amount of water resources used (water consumption)
136,760 MWh	393 thousand m ³

Social and Relationship Capital

We strive to achieve sustainable co-creation of social value through initiatives aimed at maintaining and improving our supply chain as well as dialogue with stakeholders

Number of suppliers	Dialogue with investors
Approximately 3,000	443 (Number of interviews)
