FY2025 1H Earnings Overview

Market Conditions and Our Initiatives in FY 2025 1H

<Market and Demand Trends>

- The anticipated impact of trade policy **was milder than expected**, though the extent varied by region.
 - Japan and Europe: Weak demand in the automotive industry
 - U.S., China, and Asia: Steady demand in telecommunications and electronics

<Our Company's Performance>

- Growth: Increased sales offset the effects of tariffs and currency fluctuations, resulting in **higher sales**.
- Profitability: Although there were several factors negatively impacting profits—such as tariffs, forex, and costs related to the Fictiv acquisition—overall results were **roughly in line with the initial plan**.

<Strategy Execution & Foundation Strengthening>

- We continued to **balance** short-term and mid-term measures, with **steady progress made in our Digital MODEL initiatives**.
- Investments to strengthen the business foundation, which are essential for sustainable growth, also continued.
- Since July, **Fictiv's performance**, now included in our consolidated results, **has been strong**, and the integration plan is proceeding smoothly.

FY2025 1H Earnings Overview

Growth of +3.9% year-over-year due to the effects of proprietary initiatives. Record-high performance continued pre-Fictiv consolidation.

Higher sales volumes balanced out tariffs and forex, but profit still fell YoY because of growth-related investments, including Fictiv.

FY2025 1H Sales and Operating Income by Business Segment

FA: Sales experienced growth due to proprietary initiatives including meviy, Economy products, and D-JIT. The integration of Fictiv contributed to additional sales expansion.

Die Components: Although demand in the automotive sector remains sluggish, growth in China and Asia has offset this, resulting in only a slight year-over-year decrease in sales.

VONA: Achieved increased sales and profit by capturing mass production demand, mainly in China and Asia.

FY2025 1H Sales Variance Analysis (YoY)

Increased volume, driven by the effects of proprietary initiatives, offset the impact of tariffs and forex.

Sales increased by 3.9% YoY following the consolidation of Fictiv in July.

FY2025 1H Operating Income Analysis (YoY)

The growth in volume mitigated the year-over-year effects of tariffs, forex, cost increase, and product mix, while investments related to growth continued.

Acquisition-related expenses were incurred, and the decrease in profits due to Fictiv's performance was less significant than previously anticipated.

Capital Investment Performance

Ongoing IT investments include global launch of the new core system, with further upgrades for production and logistics planned for later this year.

Progress of Integration Plan

The integration plan designed to create synergies is on track and has already produced results surpassing our original expectations.

1. Lean Transformation

- Manufacturing of Fictiv products at MISUMI's collaborative factories began, contributing to cost reduction.
- Cost savings have also begun through the consolidation of international and the U.S. domestic transportation providers.
- Additional savings are under consideration through integration of AWS and consolidation of insurance contracts.

2. Cross-selling

- Joint sales activities to MISUMI customers commenced, acquiring multiple large orders due to MISUMI's credibility.
- We will initiate sales of MISUMI products to Fictiv customers.

3. Expansion of business domain (Product development domain)

- Trial marketing for a new business targeting a select customer group in the Americas market has commenced.

Strong growth continued, especially in price-sensitive regions such as China and Asia.

Regionally strengthened and accelerated growth through new catalog releases, local procurement, and marketing efforts.

Global Sales

Japan

- Development of new products
- New catalog (booklet) launched in Oct

Asia

- Local procurement rate rose to 35%
- Expanding intra-regional product lineup
- New catalog launched in Vietnam in Oct, with further regional releases planned

China

- Strengthening development of high value-added (Economy Module) products and expansion of product lineup

D-JIT (Realization of large-volume procurement): Global Expansion

Overseas sales grew 130% in FY2025 1H due to accelerated overseas expansion. In 2H, the new core system will be launched in the U.S., Mexico, and India, further expanding geographical reach and utilization.

Improving Response to Quantity: D-JIT

- A unique system is now in place that allows us to respond to our customers' needs, even for high-volume orders with short lead times
- From “**MISUMI for small quantities, quick delivery**” to “**MISUMI even for larger quantities**”, which will be rolled out globally from Japan

Approx. 50 bn yen MISUMI inventory → Approx. 800 bn yen virtual inventory

The 4th Digital MODEL Shift: flow

- Total cost reduction for manufacturing components that tailors the purchasing of manufacturing components according to a customer's purchasing pattern
- To expand from existing equipment manufacturing customers to new mass production factory customers across different industries

Business Foundation

IT

- Our Company has made a proactive investment in IT to promote sustainable growth
- Starting in fiscal year 2021, we began a comprehensive overhaul of the core systems
- We aim to triple the rate of new feature development while reducing development costs by two-thirds

Production/ Logistics

- Aiming for a more stable supply of products by strengthening the globally reliable, quick delivery system

production

We have established a global 5 region production system. In the event of an emergency, we can immediately switch production plants

logistics

Expansion of global operations with automation. Strengthen logistics infrastructure through productivity and site expansion
